## LOGO PRACTICE

Frank Construction has been carefully crafted and designed with thoughtful mind, as well as been going through a lot of refining and adjustments to make it look its best, so it is important that we know how to properly use it to archive its maximum quality and definition.

Forbidden uses:

Do not change the logo's color. Changing the color in any part of the logo is hiding the logo from the viewer, losing the meaning and definition behind the logo.

Do not change the font of the logo. The logo is based on the logo being in bold because it is paired with the style, changing it is forbidden.

13

## LOGO PRACTICE

### FRANK CONSTRUCTION

Do not change the look of the logo. Never change the logo's look, ever, doing this will result in bad logo protection and damage the logo's reputation.

Do not change the logo. Never change the logo, as it will ruin the official color of the logo which are mostly design as to represent.
